

## Advanced Search – how do I find news items listed by Category or Keyword?

To access the advanced search function press the button next to the input slot on the Home Page. This enables more complex search operations such as those using keywords or news categories.

## 1) Keyword

You can search here using the keywords which are allocated in standard form to all news items produced by dpa. The keywords are contained in the box *Text Information* which is shown on the right-hand side of the page. They appear when you click onto a particular headline in your results list to get a detailed view of the news item.

08/06/2009 • Version: 1.7
Author: Jantje Bruns/Martin Bensley

## 2) Categories

By clicking the box under the keyword slot you can choose one or more news categories. The abbreviations for the news categories are as follows:

pol = Politics gen = General fin = Financial ent = Entertainment spo = Sport adv = Advisory
