

## Configuring – how can I configure my Home Page?

The dpa-platform enables you to customise the display in order to suit your personal needs and preferred page areas. If you subscribe to only certain products from the wide range on offer from dpa the necessary adjustments will be made when your account with us is set up.

The screenshot shows the 'My Home Page' configuration page in the dpa-platform. The top navigation bar includes links for 'dpa Today', 'My Home Page', 'My Searches', 'My Folders', 'Settings', 'Extras', and 'Help', along with a 'Logout' button. The left sidebar contains a menu with 'Preferred Products', 'Page Settings', 'Search Date Controls', 'My Home Page' (highlighted with a red dashed box), 'Result Lists', 'Detailed Views', 'Change Password', and 'User Data'. The main content area is titled 'Configure "My Home Page"' and includes instructions on how to use the 'Hide' or 'Show' icons for preferred page areas. Below the instructions, there are two tabs: 'Hide Deactivated Areas' and 'Restore Default Settings'. The 'Save now' button is prominently displayed. The configuration options are divided into two sections: 'Specify which page is to be displayed as your home page after you login.' and 'Settings for the "dpa Today" Page'. The first section has a radio button selected for 'Personal Result List' and another for 'dpa Today'. The second section contains a list of page elements that can be configured, including 'Login', 'Latest Searches', 'Saved Searches', 'Product Selection', 'Folder', 'Intro', 'Media Types', 'News products', 'Subjects', 'People', 'Organizations', and 'Locations'. Each element has a corresponding 'X' icon to toggle its visibility. The 'Products & Profiles' section includes a 'Make your selection here' area with 'Saved Searches' and 'News products' dropdown menus, both currently set to 'Select None'. A 'Hint' section provides additional guidance on saving a personal search to display on the home page.
